

Black Tea Polyphenols:

New Insights from Molecular Mechanisms to Human Health

Chair

TSUTOMU NAKAYAMA

(University of Shizuoka, Visiting Professor)

Speaker

Takashi Tanaka

Professor Emeritus

Graduate School of Biomedical Sciences,
Nagasaki University

Title

**Chemistry and Activities
of Black Tea Polyphenols**

Speaker

Yusaku Iwasaki

Professor

Laboratory of Animal Functional Science,
Graduate School of Life and Environmental Sciences,
Kyoto Prefectural University

Title

**Recent Advances in Black Tea Polyphenols:
Effects Mediated by the Gut-Brain Axis**

DATE

10/16 (Fri), 2025

TIME

11:45 – 12:45

VENUE

Room C (G302)

This seminar will introduce the latest scientific evidence on black tea polyphenols, from molecular mechanisms to their benefits for human health.

Organized by

International Conference on Polyphenols and Health (ICPH) &
International Conference on Food Factors (ICoFF) 2026
