3. Unazuki Area

This excursion takes you aboard the Kurobe Gorge Railway through one of Japan's most spectacular canyons, the Kurobe Gorge. Carved by the Kurobe River, which flows 86 kilometers from the Northern Alps with an elevation difference of 3,000 meters, the gorge is known for its dramatic V-shaped cliffs and dynamic landscape shaped by powerful currents and abundant water. Designated as part of Chubu Sangaku National Park in 1934, the area is also famous for its beautiful seasonal scenery. In autumn, the mountainsides are covered in vibrant colors, allowing passengers to enjoy stunning fall foliage views from the train windows.The pure waters of the Kurobe River have also been selected as one of Japan's "100 Exquisite and Well-Conserved Waters," highlighting the rich natural environment that defines the Kurobe region.

Departure from Unazuki Station

Unazuki Station is the starting point of the Kurobe Gorge Railway. This is typically one of the best seasons to enjoy the autumn colors, and the scenic trolley train ride offers spectacular views of the magnificent Kurobe Gorge.

※Please note that the timing and condition of the autumn foliage may vary depending on weather conditions.

*As the trolley cars are open-sided and have no windows, we recommend bringing a long-sleeved jacket to keep warm. Please also wear comfortable shoes suitable for walking.
