Guideline of Viewing Abstract Book and Bookmarking the Sessions or Papers

Other Features

Program List

View all the presentations here and bookmark them. Scroll down for other session or click the index button on the top.

The screenshot shows a navigation bar with tabs for 'Plenary Session', 'Keynote Presentation', 'Symposium', 'Concurrent Contributed Papers', and 'Poster Session'. Below this, 'Session 1' is highlighted. The main content area displays a session title 'Recent development of case-only studies in Asia-Pacific region' with 'Bookmark' and 'Details' buttons. Below the title, there are fields for 'Date' (October Sat 12, 2024 18:15 - 19:15), 'Room' (Yasuda Auditorium (Venue Y)(The University of Tokyo (Hongo Campus) Room 1)), and 'Chairperson'. Two abstracts are listed: 'PL1-1 How to detect and remove biases specific to case-crossover studies' by Kiyoshi Kubota and 'PL1-2 Co-presenter: Self-controlled case series: the best thing since sliced bread?' by Angel Wong. 'Session 3' is also visible at the bottom, starting with 'Translating pharmacoepidemiology research into real-world practice in the Asia-Pacific region'.

Search with Title

Enter keywords to search for the presentations. (One vocabulary at a time.)

The screenshot shows the 'Search Program' interface. At the top, there is a search bar with the keyword 'cancer' and a 'Search more' dropdown. Below the search bar are 'Search' and 'Clear' buttons. The results are categorized under 'Cancer'. The first result is a session titled 'Cancer' with 'Bookmark' and 'Details' buttons. Below it, there are two abstracts: 'O209 Risk of lung cancer with concomitant use of ACEi and DPP4i' by Bin Hong and 'O210 Treatment modalities for primary head and neck cancer in Japan' by Grace Hui-Min Wu. Below these, 'Cost Effect./Economic Evals.' is highlighted, showing a session titled 'Translating pharmacoepidemiology research into real-world practice in the Asia-Pacific region' with 'Bookmark' and 'Details' buttons. Below this, there is an abstract 'O222 Cost-effectiveness of universal screening for Lynch syndrome among colorectal cancer patients in Vietnam' by Cong Bang Huynh.
